Salt Water Release Reported in Williams County

BISMARCK, N.D. – The North Dakota Department of Health has been notified and is monitoring a brine (salt water) release north of Williston in Williams County.

According to the report, approximately 1,240 barrels of brine water were released when a drain valve was left open on a pipeline. Approximately 1,110 barrels have already been recovered and the remaining amount is being cleaned up. The spill is completely contained at the site.

For more information, contact Dave Glatt, North Dakota Department of Health, at 701.328.5150.
